

FinEdge Financials API

The **FinEdge Financial API** is designed around REST principles, making it simple and reliable to integrate into your applications. With predictable, resource-oriented URLs, JSON-encoded responses, and standard HTTP verbs, developers can get started quickly and scale with ease. **Our API Offers:**

- **Profit & Loss:** 8+ years of historical data (with ongoing updates)
- **Balance Sheet:** Up to 7 years of financial history and growing
- **Cash Flow:** 4 years of cash flow statements, expanding over time
- **Sector Insights:** Deep coverage across industries (insurance coming soon)
- **Commodity & raw material prices**
- **Revenue by Segment**
- **Shareholding pattern**
- **Financial ratios**
- **Mutual Funds** – Coming soon
- and much more.

Get Started in Minutes

- Explore with sample data from **ITC**, **Reliance**, and **HDFC Bank**.
- Use the stock symbol for any company specific search. You can get the symbols from the following api [stock_symbols API](#)
- Alternatively you can use **{Nse Code}.NSE** or **{Bse code}.BSE**.

CORPORATE ACTION

Provides details on key corporate actions that impact shareholders:

- **Stock Splits** – Changes in the number of outstanding shares and price adjustments.
- **Bonus Shares** – Additional shares issued to existing shareholders at no cost.
- **Rights Issues** – Opportunities for shareholders to buy discounted shares to maintain ownership and help companies raise capital.
- **Dividends** – Information on cash distributions from company earnings to shareholders.

AUTHORIZATION API Key

This folder is using API Key from collection [FinEdge Financials API](#)

GET /corporate-actions/:corp_action/:symbol

https://data.finedgeapi.com/api/v1/corporate-actions/:corp_action/:symbol

This endpoint fetches information about split/bonus/rights share issuances by a company.

1. Stock **split** alter the number of shares outstanding and the share price, impacting both the company's capital structure and shareholder value. This data is essential for understanding changes in share distribution and assessing their impact on historical performance metrics.
2. **bonus** shares are additional shares given to existing shareholders at no extra cost, based on the number of shares they already own. This action increases the number of outstanding shares while reducing the stock price proportionally, without affecting the overall market capitalization.
3. **rights** This endpoint fetches information about rights share issuances by a company. A rights issue gives existing shareholders the option to buy additional shares at a discount proportional to their current holdings. Unlike free bonus shares, rights issues require new investment but help companies raise capital while allowing shareholders to maintain their ownership stake.

FINANCIALS

Access company financial statements and segment data:

- **Financial Statements** – Income statement, balance sheet, and cash flow statement in annual and quarterly formats, sourced directly from company filings.
- **Profit & Loss (Quarterly/Annual)** – Summarizes revenue, expenses, and profit over a period.
- **Balance Sheet** – Provides details of assets, liabilities, and shareholder equity.
- **Cash Flow Statement** – Tracks cash inflows/outflows across operating, investing, and financing activities.
- **Revenue by Segment** – Breaks down revenue and profit by business divisions (available only for companies reporting segment data).

AUTHORIZATION API Key

This folder is using API Key from collection [FinEdge Financials API](#)

GET /financials/:symbol

`https://data.finedgeapi.com/api/v1/financials/:symbol?statement_type=s&statement_code=pl&period=annual`

The financial statements include Income statement, Balance sheet and Cash flow statement available in annual and quarterly format sourced directly from company filings.

Quarterly & annual Profit & Loss

Profit and loss is a financial statement that summarizes a company's sales, expenses and profit over a specific period. The API retrieves the quarterly and annual profit loss statements for a company.

Balance Sheet

The balance sheet is a financial statement that displays a company's total assets, liabilities, and shareholder equity over a specific timeframe (quarterly or yearly). The endpoint provides the balance sheet data for a company on annual basis.

Cashflow Statement

The cash flow statement is a financial statement that highlights how cash moves through the company, including both cash inflows and outflows. This statement shows the cash flows in 3 main categories "Operating Cash Flows", "Investing Cash Flows", and "Financing Cash Flows" on annual basis. The endpoint provides the cash flow data for a company on annual basis.
